Important New Guidelines for Prescription Flea and Tick Products:

In order to provide half price vaccinations to the most pets during our Low Cost Shot Clinic, we are unable to perform a physical exam or any other services during this visit. According to Oklahoma State regulations, prescription medications require a recent client-patient-veterinarian relationship with a physical exam. Bravecto, Simparica, Credelio, Comfortis, Interceptor Plus, Trifexis, and Proheart are prescription medications that will require a physical exam and/or heartworm test with a doctor prior to these medications being prescribed.

Pets getting vaccinated at our Low Cost Shot Clinic do not receive a physical exam by a doctor therefore will no longer be eligible to purchase prescription medications prior to getting a prescription consultation exam.

If our doctors have not examined your pet in the last two years, we encourage you to take advantage of our \$10 prescription consultation exam (with purchase of prescription flea & tick or heartworm medication).

If you plan to take advantage of our Buy 2 Get 1 Free offer on prescription flea & tick medication during our upcoming shot clinic, we would suggest making your \$10 prescription consultation exam ahead of the sale to avoid any delays in the purchase of these medications.

Please call 405-733-4649 with any questions or to schedule your pet's prescription consultation exam. We appreciate your
